

Dance DX This Summer!

Join us for an exciting summer of dance! Each week will be a fun theme as dancers further develop balance, flexibility, and strength by using body weight to create resistance. Exercises to increase core, back, outer & inner thigh muscles will be heavily focused upon. Weekly combinations will be taught to build stamina, agility, and quality of movement by introducing turn sequences and various jumps requiring functional flexibility. You won't want to miss a single week!
